SPAWAR Systems Center San Diego Awards Contract

SAN DIEGO — ORINCON Defense of San Diego, Calif., is being awarded a \$26,835,899 indefinite-delivery, indefinite-quantity, cost-plus-fixed-fee contract for signal and information technologies support. The contract will provide continued support to technology development programs and to expanded Navy technology transition and development efforts in signal and image processing; information processing; classification processing; intelligence, surveillance and reconnaissance signal exploitation and information management; processing system performance assessment; simulation and modeling; the application of simulation-based design principles; human-computer interface development efforts related to the automation of certain operator intensive functions aboard Navy vessels; and web-enabled collaboration. This contract will have a five-year base ordering period and contains award term incentives, under the Government's Award Term Plan for evaluating contractor performance, that could bring the cumulative value of this contract to \$48,320,468. The period of performance of the base contract is from January 31, 2003 to January 30, 2008. Work will be performed by ORINCON Defense of San Diego, Calif., (60%), Digital Systems Resources, Inc. of Anaheim Hills Calif., (11%), and by ManTech Systems Engineering Corporation of Fairfax, Va., (29%). It is anticipated that 10% to 25% of the work will be performed on-site at the Space and Naval Warfare Systems Center San Diego, with the remaining work performed at the contractor's and subcontractors' facilities. Contract funds will be provided under individual task orders to the contract and will not expire at the end of the current fiscal year. This contract was competitively procured as a 100% small business set-aside via the SPAWAR e-Commerce Central web site, with one offer received. The Space and Naval Warfare Systems Center San Diego is the contracting activity (N66001-03-D-5022).
